"Lexington County SC SOLIDWASTE"

*only available for unincorporated residents*
Why is recycling important?

- Recycling prevents materials from going into a landfill.
- Recycling saves money and creates jobs.
- Recycling saves natural resources like trees and petroleum.

How should items be prepared for recycling?

- Clean your recyclables and separate them from your regular household trash.
- Flatten cardboard. This will help save space.
- Keep newspaper, magazines, cardboard and office paper clean and dry.
- At the collection centers, place recyclables in the correct containers.
- When in doubt, leave it out ... or ask!
