### Half Staff

There are two days in the year when the American flag is to be displayed at half-staff: Peace Officers Memorial Day (May 15) and Memorial Day (last Monday in May).

- On Police Officers Memorial Day, the flag is flown at half-staff to remember those law enforcement officers who died in the line of duty. The flag is to be flown at half-staff all day.
- Memorial Day recognizes the deaths of all veterans whenever they died. Flags are to be lowered to half-staff until 12 noon when they are to be raised to full staff.

The President has congressional authority to order flags to be lowered to half-staff on other important days, such as Pearl Harbor Remembrance Day (December 7th) or Patriot Day (September 11th).

The President or Governor also may order flags to be flown at half-staff for other special occasions. A proclamation is usually issued for those occasions detailing the reason and length of time to be flown at half-staff.

### JOSHUA TORRENCE FIELD HOUSE DEDICATION

Friends of Joshua Torrence are raising funds to name the new field house at White Knoll High School on his behalf.

Josh was a member of the White Knoll High School football team prior to graduation. He joined the United States Marine Corps and was assigned to the 2<sup>nd</sup> Amphibian Assault Battalion, 2<sup>nd</sup> Marine Division.

Josh, who was killed while on patrol in Fallujah, Iraq on March 14, 2005, was the first graduate of White Knoll High School to die serving his country.

Plans are underway to name the field house for Josh at the annual White Knoll High School-Lexington High School football game in November.

Contact 1st Sgt. David Pelley at (803)996-4564 or see the attached flyer on purchasing a brick to make this dedication a reality.

## **BEHAVIORAL COUNSELORS FOR DORN**

DORN VAMC has been approved for twenty-five new behavioral counselors to work with veterans with PTSD and other psychological issues. DORN has already hired a number of these counselors to deal primarily with Operation Enduring Freedom and/or Operation Iraqi Freedom veterans. These counselors will fill a void in the system, which has seen a large number of veterans experiencing PTSD.

Veterans needing such counseling can contact their primary care physician at DORN VAMC. Veterans not in the VA medical care system need to complete an application to enroll. Check with your local VA office.

## **DORN EMERGENCY DEPARTMENT**

The DORN VAMC now has a 24/7 Emergency Department. This is an emergency care facility only and will not provide after-hours non-emergency care.

**If DORN VAMC is used for your primary medical care, advise your family members and/or EMT personnel that you wish to go to DORN VAMC for emergency treatment.**

However, veterans needing immediate emergency care should advise family members and/or EMT personnel to take you to the *nearest* emergency medical facility.

Veterans must then notify DORN VAMC within 72 hours of admission that they have been treated in another facility. Dorn will contact the facility regarding any need for transfer to Dorn, payment for emergency services, etc.

## **SPECIAL EXPOSURE EXAMS**

Veterans who have medical symptoms believed to be associated with exposure to Agent Orange, radiation, or asbestos while in service should request an exam at the DORN VAMC. This also applies to Gulf War veterans exposed to environmental hazards.

Go to the C&P office at DORN with your DD-214 or discharge papers and request that you be examined. If you are currently under medical care at DORN, ask your primary care physician to examine you for these conditions.

If the exam shows a diagnosis related to such exposure, contact the VA office to see about filing a claim for service-connected disability.

As of the date of going to press for this issue, the VA has until Friday, July 20 to file an appeal brief on the Haas “Blue Water Navy” decision. Haas, a Blue Water Navy veteran, received a favorable rating at the Board of Veterans Appeals in August 2006, granting him service-connection for exposure to herbicides (Agent Orange) in Vietnam. The VA appealed that decision. The file brief expected by July 20 should be the last brief before the matter is adjudicated by the US Circuit Court.

### I Am a Blue Star Mother

I am the mother of a United States Service Member.  
My child gave me this title.

I will give him a heart full of wonder at his accomplishments and a voice that praises his desire to serve.

I will place my faith in his military training and in God's protection.

I will give him the prayers that will follow him where I cannot.

I will be strong when I want to cry and be brave when I want to cower.

He will know that I am behind him every step of the way.

Because I bear the title of Mother of a United States Service Member.

## USS NEW YORK

*Made from the World Trade Center*

It was built with 24 tons of scrap steel from the World Trade Center. It is the fifth in a new class of warship – designed for missions that include special operations against terrorists. It will carry a crew of 360 sailors and 700 combat-ready Marines to be delivered ashore by helicopters and assault craft.

Steel from the World Trade Center was melted down in a foundry in Amite, LA to cast the ship's bow section. When it was poured into the molds on Sept. 9, 2003, "those big rough steelworkers treated it with total reverence," recalled Navy Capt. Kevin Wensing, who was there. "It was a spiritual moment for everybody there." Junior Chavers, foundry operations manager, said that when the trade center steel first arrived, he touched it with his hand and the "hair on my neck stood up." "It had a big meaning to it for all of us," he said. "They knocked us down. They can't keep us down. We're going to be back."

**The ship's motto? "Never Forget"**
