

## Compost

### Content

- Certified by the US Composting Council and tested every two months
- Clean wood waste only
- Screened to ensure <3/8 inch pieces

### Coverage

- Residential users, use between 3 cubic yards (approx. 2 tons) per 1,000 square feet for 1" thickness and 6 cubic yards (approx. 4.2 tons) per 1,000 square feet for 2" thickness. Roto-till soil or manually blend the layer of compost with 6" of existing soil.
- Commercial users, contact Lexington County Solid Waste Management at (803) 785-3340 or [tsander@lex-co.com](mailto:tsander@lex-co.com) for instructions specific to your application.

### Amounts

- 1 ton = about 1.43 cubic yards
- 1 bag = about 40 lbs
- 50 bags = 1 ton
- 35 bags = 1 cubic yard
- Small pickup trucks hold approximately one ton.

## Mulch

### Colors

- Brown, black and red but call (803) 755-3325 to confirm availability
- Uncolored mulch is also available.

### Coverage

- 1 cubic yard covers approx. 150 square feet 2" thick

### Amounts

- 1 ton = about 3.33 cubic yards
- 1 bag = 2 cubic feet = about 43 lbs
- 14 bags = about 1 cubic yard
- Average pick-up truck or trailer holds ½ ton or 1-2 cubic yards (but this can vary significantly depending on the moisture content of the mulch)

## Backyard Compost Bins

- 3' wide x 3' tall
- 80 gallon capacity
- Vent the cap by turning
- Designed to keep pets and pests out
- Access material by lifting the front door, removing the top cap or removing the upper half/dome.
- Comes in three pieces for easy transportation and assembly (lower ring, top dome and package with front door, pegs and instructions)
- Make compost in 3-6 months.
- Use compost to enhance the quality of soil, increase aeration and water-holding capacity, to suppress plant diseases and pests and to save money.
- Go to <https://scdhec.gov/environment/recycling-waste-reduction/composting-recycling-naturally> for more information.
